Why Gamble?

Your crop may be destroyed or damaged by one or more of many natural hazards.

DON'T TAKE A CHANCE.

Contract NOW for "15 in 1" protection by Federal Crop Insurance.

Round and Round it Goes-

WHERE IT STOPS-?

FEDERAL CROP INSURANCE REMOVES THIS GAMBLE

ONE contract, backed by the U. S. Government, protects your crop against all natural hazards. You have only **ONE** premium... **ONE** organization to deal with. The contract has **ONE** purpose — to protect you at low nonprofit rates.

YOU CAN'T PICK THE TIME

IF YOU KNEW exactly what year and what time of the year your crop would be wiped out or damaged, you could plan ahead and allow for the loss.

But no one can know in advance just when and where crop disaster will strike.

Even if you did know —

Could you make good your loss without dipping into your bank account?
... without cashing some bonds?
... without getting a loan?

**FEDERAL CROP INSURANCE
TAKES THIS WORRY OUT OF
YOUR FARMING**

FACTS

About Federal Crop Insurance

1. WHAT IT DOES

Protects you against crop damage from any natural cause. If your crop fails to produce the insured coverage, you collect enough to bring your crop return up to your guaranteed production. Coverage is offered on COTTON, WHEAT, and FLAX on a national basis and on CORN and TOBACCO in specified counties.

2. WHAT IT COSTS

Your premium is based on records showing the actual risk in past years of growing the insured crop in your county. Administrative expenses of Federal crop insurance are paid by the Government, which makes lower premium rates possible.

3. HOW TO GET IT

Federal crop insurance is sold by authorized agents and by county Agricultural Conservation Association (AAA) offices. It must be bought before the crop is planted or before a specified date, whichever is earlier.

Call your AAA office or see your crop insurance agent today.

It is better to HAVE insurance and NOT NEED it THAN to NEED it and NOT HAVE it.
